Bampton Parish Plan 2012

Background

The Community Council of Devon has been involved with Bampton since the latter months of 2009 in considering the development of a Parish Plan. A Steering Group was formed towards the end of 2010 and a very successful public consultation event was organised in January 2011.

After several more consultation activities, including engagement through the local school the Steering Group started to draft a questionnaire to be circulated to the whole community.

The Steering Group approached Devon County Council for assistance with developing the questionnaire, processing the completed forms and consolidating the results. However when the County Council encountered a problem with resources the Community Council of Devon was asked to take over this role in supporting the Steering Group.

The Community Council worked with Bampton to finalise the questionnaire, which was then distributed in February/March 2012. The questionnaire was divided into 2 parts. Questions 1 to 13 were to be answered as a household and questions 14 to 44 by all individuals within the household aged 11 or above. The questionnaires allowed for up to 5 people in each household to respond individually.

458 completed questionnaires representing the views of 865 individuals were delivered to the Community Council of Devon in June 2012 for data entry and consolidation.

This report details the results of the community questionnaires.
